Westside Virtual, Inc. is a website design company located in the heart of NYC. We have been in business since 2014 and are rapidly growing in the small- to medium-sized business market.

Our previous clients have been Cronus Human Capital, Brandgrowth LLC, Swiss Re America, the United Nations, Stella Air Aerospace, Reffsin Financial, WPromote, Readopedia, and PCM Corp., currently in progress.

Our main business website is <https://www.westsidevirtual.com> and we now have a discount website design shop on **ETSY**.

Our ETSY shop can be found here: <https://etsy.me/2xHGH5D>

This Brochure describes how we work with our direct clients and how we work on ETSY.

Our expertise is in beautiful Website Design at affordable rates. Although we can build websites on any CMS platform, our ETSY shop focuses on creating new websites on top of WordPress only.

At Westside Virtual, we leverage best practices in modern visual website design to bring you the best in quality and pricing. We design Landing Pages, Brand & Brochure Websites and even Re-designs, where we take what you already have and reframe it in a more modern & responsive way.

Websites are for everyone. If you are a Lawyer, Doctor's Office, Real Estate Agent, Electrician or Handyman, Counselor, Hair Salon, Landscaper, Accountant, Artist, Dry Cleaners or Book Author, we are your affordable website solution!

Our websites are fully responsive across all devices too!
